

# Year 4 Homework

Friday 14<sup>th</sup> November 2025

- Homework is set every **Friday** and must be returned the following **Wednesday**.
- Please use a sharp pencil.
- A ruler should be used when drawing straight lines.

## Maths

### Multiples of 3

1a. Use the clues to solve the questions.

Quintin has 5 lots of 3 less house points than Gemma.

Gemma has 3 times as many house points as Andrea.

Andrea has 9 house points.

- A. How many house points do Quintin and Gemma have each?
- B. How many house points do they have altogether?

1b. Use the clues to solve the questions.

Alina has 2 lots of 3 more reward stickers than Darren.

Darren has 3 times as many reward stickers as Raj.

Raj has 8 reward stickers.

- A. How many reward stickers do Alina and Darren have each?
- B. How many more reward stickers does Alina have than Raj?

True or false?

1. Multiples of 3 are always even numbers.
2. Sometimes multiples of 3 are also multiples of 2.
3. If you double multiples of 3, you will get multiples of 6.
4. In order, multiples of 3 alternate odd, even, odd, even etc.
5. Multiples of 3 cannot be halved to make a whole number.

## English

In English soon we will be writing about a historical figure. We will be writing about a famous pharaoh from Ancient Egyptian times called Tutankhamun.

Research Tutankhamun and answer the following questions:

- When was he born?
- Where did he live?
- How old was he when he died?
- Where was he buried?
- What was his job?
- Was he liked or disliked?
