

## Have you read... **Anne of Green Gables – L.M Montgomery - Years 5-6**

Phenomenal, fantastic and unforgettable! After reading this particular heritage classic, my eyes were opened to the world of Anne (with an E of course!). The reader is given insight on Anne's thoughts and her troubled mind, causing you to relate to her, and feel a variety of emotions just as she experiences them. This includes: feeling sorry, angered and exuberant! Unlike other books, Anne of Green Gables doesn't include some sort of bizarre adventure, but follows Anne in her day to day life. You might think this might make the book "boring", but you couldn't be more wrong! This book has a bit of everything; adventurous vocabulary, humour, as well as somber scenes that bring a lump to your throat. Overall, I'd give this book a 10/10 for all of its stupendous features. I'd recommend it to those of you who love to have a unique book-which is also overflowing with great language!

If you think you'd like this book, go ahead! Give it a try!
